WATER STEWARDS 2021 YEAR IN REVIEW

Congratulations, Blue Diamond Villagers!

In 2021*, **more than 66% of households used *LESS* water** than in 2020.
Together, **we saved more than 2 million gallons** of our most precious resource!
Thank you to those who conserved and to those who continue to stay on the mission!

*data measured from Jan - Aug 2021 and gathered by public LVWD records

HOW'D THEY DO IT?

(tips and stories from a selection of those who saved the most)

- Sheila + Trent **removed a large area of grass**, saving more than 100,000 gallons of water .
- Beta + Charles saved more than 250,000 gallons by **fixing a large leak**.
- Diawatha also fixed a longstanding leak, plus she **collects the excess water from her swamp cooler** in the summer, and waters her plants with it.
- Colleen + Greg replaced their indoor plumbing, **removed water-sucking plants** from their yard, and **reprogrammed their irrigation system** to save more than 125,000 gallons.
- Genevieve, Lily and Rumi **removed grass** and built **water-conserving plant beds** in their garden.

MOST IMPROVED

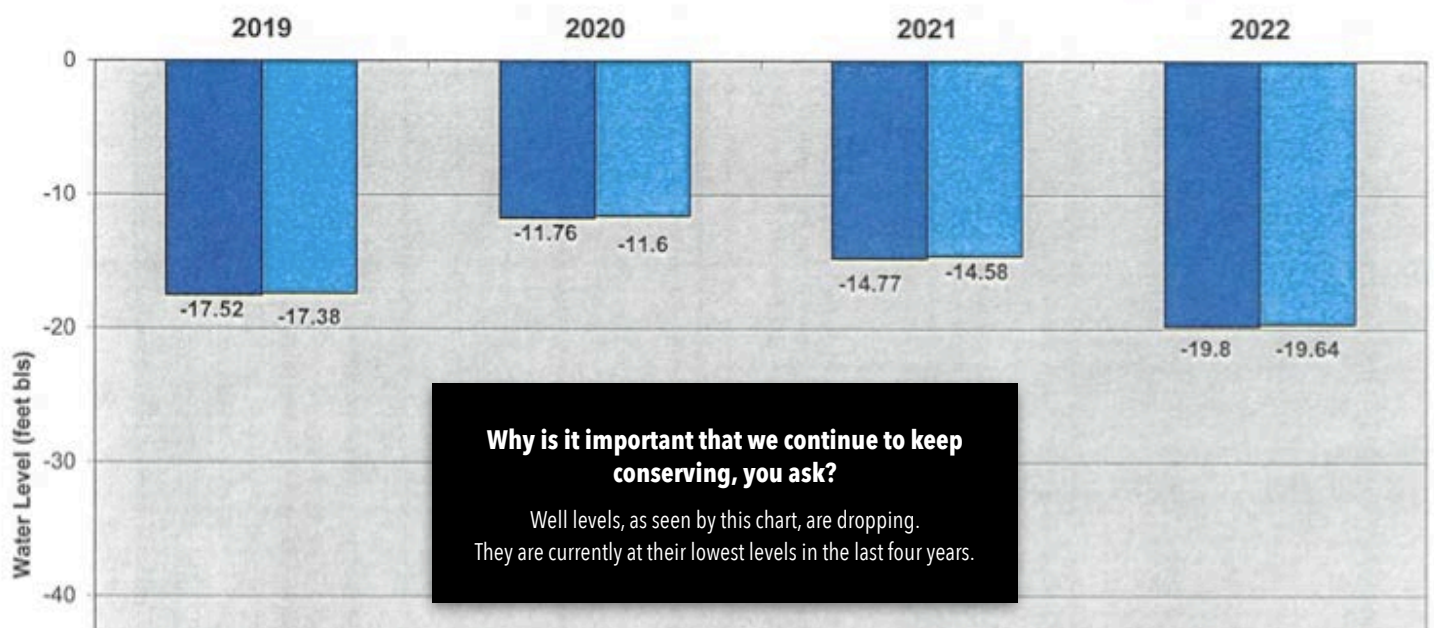

(decreased use by 75,000 gallons or more during measured period)
